

## Magnetic Drilling Machines - SCANTOOL MB 45

Item Number: 100386045

**Scantool compact and portable magnetic drill MB-45 with step-less and variable speed.**

The MB-45 is a compact and robust magnetic drilling machine with a holding power of 1400 Watt. The MB-45 has stepless, variable speed, right-left running and do tapping up to M12.

We have thought about the design, and because of the compact design, it is very suitable for drilling close up of vertical surfaces. The MB-45 also has an integrated one-piece gearbox and sled, which ensures maximum stability and precision.

### Built-in cooling system

The MB-45 has a built-in cooling system for easy and convenient cooling of core drills while drilling. The right refrigerant will be crucial to having a well-run machine and maintaining a long life on your drills.

The magnetic drill comes in a practical suitcase that makes it easy to transport, and at the same time protects the magnetic drill against impact and dirt.

**Remember to buy refrigerant and core drill drills for your machine!**

## Product Specifications

Drilling Capacity (∅ mm)	45
Drilling Depth (mm)	55
Machine height (mm)	385/590
Machine length (mm)	310
Machine width (mm)	285
Magnet lift (N)	13000
Magnetic base (mm)	104x200x45
Motor (Watt)	1400
Net weight (kg)	18
Noice level (dB)	85
Rpm	100-330
Tapping Capacity	M 12

Voltage

1x230V-50 Hz
