

Centerless belt grinder for industry - KEF BSH 20-75 CGX

Item Number: 420232237

BHS 20-75 CGX centreless grinding and polishing machines

KEF BSH CGX is supplied with an attachment which can be mounted on all belt grinders with a 75x2000 mm belt and with a large grinding surface on top. The centreless grinding attachment is easy to operate and grinds/polishes all pipes and tubes with diameters of between 10 and 100 mm.

BHS 20-75 CGX centreless grinding and polishing machines are unique compared to other centreless grinders on the market because they remain a belt grinder even when the centreless grinding attachment is mounted. It is not necessary to take off the centreless attachment when using the belt grinder for normal grinding work.

Both the contact wheel and the flat grinding surface on top are available for normal grinding and polishing even with the attachment on the machine. Centreless belt grinder available with and without dust extraction. Standard version - grinding and polishing of tubes with diameters of between 20 and 100 mm. With Teflon grinding support, 75 CGX can grind and polish tubes with diameters of between 6 and 20 mm.

Product Specifications

With exhaust	✓
Belt grinder	BSH 20-75X
Gear	NMRV030
Machine height (mm)	1200
Machine length (mm)	1320
Machine width (mm)	660
Motor (HP)	4,1
Net weight (kg)	115
Number of spindle speeds	1
Pipe dimension (ø mm)	6-100
Voltage	3x400/440V-50/60 Hz

Wheel size, Drive wheel (∅ mm)

50x150x19
